## THE BOLOGNA BOOK FAIR IS ORGANISED WITH THE SUPPORT OF ITA AND MAECI

Thanks to the support and collaboration of the Italian Trade Agency (ITA) and the Italian Ministry of Foreign Affairs and International Cooperation (MAECI), BCBF has significantly strengthened its international reach and expanded opportunities for the global publishing industry.

ITA and MAECI-backed initiatives have played a key role in the development of the 2026 Bologna Children's Book Fair, BolognaBookPlus, and the Bologna Licensing Trade Fair/Kids, notably through the creation of major business hubs within the fair, including the Comics Corner, World Lounge, BBPLUS Hosted Publishers Lounge, TV/Film Rights Centre, Games Business Centre, and the Toy Business Lounge.

ITA and MAECI's support also promotes Italian creativity and publishing worldwide through the Italian Illustration

Lounge, which fosters opportunities for Italian illustrators, and through the Translators Centre, with a series of supported initiatives dedicated to encouraging the international circulation of Italian literature.

These initiatives further enhance the fair's global dimension, including a major Invitation Programme that brings around 150 leading international publishing professionals to Bologna from across the world.

The programme helps consolidate Bologna's role as a key meeting point for the world's leading publishing buyers and as an international marketplace for Italian publishing exports. Direct connections with Italian publishers are strengthened through an extensive matchmaking programme organised in collaboration with the Italian Publishers Association (AIE).

## THE BCBF BRAND EXTENSION FOR GENERAL TRADE PUBLISHING

BolognaBookPlus is the European Spring opportunity for general trade publishing. It is the gateway to Italian publishing through its partnership with AIE - Italian Publishers Association. This year's packed event programme includes the ever-popular AI Summit, Audio Forum, Translation Forum, and in-conversations with the Illustration Ambassador, Mari Kanstad Johnsen, and the Author Ambassador Rafał Kosik. The seminar programme is filled with highlights once again, with topics ranging from AI and contracts to discoverability and the artist as entrepreneur. A new edition is the Designer Studio, dedicated to art direction, editorial graphic design, and general trade publishing illustration, conceived to enhance the dialogue between visual design and those who both commission and consume it. It also hosts: Talking Pictures 2026, focusing on Norway, the Guest of Honour, an exhibition of the Italian artists Anna and Elena Balbusso, also known as the Balbusso twins, a focus on Agatha Christie Jackets, and The Society of Illustrators Annual exhibition.

## DESIGNER STUDIO @BOLOGNABOOKPLUS

A NEW HUB  
FOR ART DIRECTION, EDITORIAL  
GRAPHIC DESIGN AND GENERAL  
TRADE PUBLISHING ILLUSTRATION

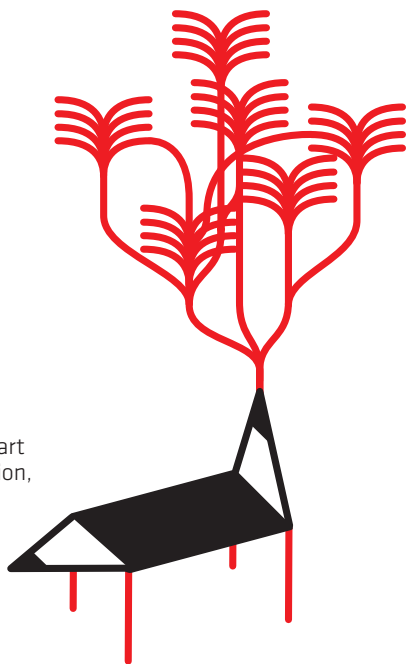

New for BolognaBookPlus 2026 – the Designer Studio: a new programme, curated by Mimaster Illustrazione, dedicated to art direction, editorial graphic design and non-children’s illustration, designed to foster dialogue between visual design and the general trade publishing market. The programme features masterclasses, workshops and portfolio reviews led by internationally renowned art directors, graphic designers and illustrators, including the 2026 Illustration Ambassador, Norway’s Mari Kanstad Johnsen.

This first edition focuses on the book cover as both a visual design object and a marketing tool. Masterclasses explore its evolution from historical roots to contemporary practice, while hands-on workshops engage designers and illustrators in the process of creating and developing book covers for publishing.

The programme also features the Jackets Off! exhibition, comparing iconic book covers from different countries: this year’s edition is dedicated to Agatha Christie, with a special focus on illustrator Ferenc Pintér. Talking Pictures returns with a focus on Norway, in partnership with Grafill, considering the cultural importance of the contemporary international visual book.

Two special exhibitions complement the programme: the Gold and Silver Medal winners in the Book category of the Society of Illustrators Annual 2022-2026, and a special preview of the Balbusso Twins’ solo exhibition – Society of Illustrators, New York, April 15 - July 11, 2026 - celebrating 25 years of the Italian artist duo, Anna and Elena Balbusso.

## WRITERS LAB

### TOOLS AND CONNECTIONS FOR TODAY'S AUTHORS

Writers Lab is the new area of BolognaBookPlus dedicated to authors: a space designed to provide guidance, practical tools, and opportunities for dialogue with professionals from across the publishing industry.

The programme features more than twenty events for writers and publishers, exploring topics ranging from the writing process (with Bottega Finzioni) to the evolving landscape of publishing, including the increasingly strategic relationship between traditional publishing and self-publishing.

Launching this year, the project aims to become, a key reference point for Italian and international authors attending the fair.

Writers Lab è la nuova area di BolognaBookPlus dedicata agli autori: uno spazio pensato per offrire orientamento, strumenti e occasioni di confronto con i professionisti della filiera editoriale. Il programma propone circa venti incontri dedicati a chi scrive e pubblica, dal percorso di scrittura (con Bottega Finzioni) ai nuovi scenari della pubblicazione, incluso il dialogo sempre più strategico tra editoria tradizionale e self-publishing. Un progetto che debutta quest'anno e che punta a diventare un punto di riferimento per tutti gli autori italiani e internazionali presenti in fiera.

# BOLOGNA LICENSING TRADE FAIR/KIDS

THE PREMIER INTERNATIONAL EVENT  
DEDICATED TO THE LICENSING AND  
CONTENT DEVELOPMENT OF PROPERTIES  
FOR CHILDREN, TEENS AND Y.A.

BLTF/Kids is a key feature of BCBF and is located at the very heart of the fair. Bringing together the main players in international entertainment and licensing, BLTF/Kids hosts over 800 brands for children, teens and young adults. The area features an exhibition floor, a large Licensing Business Lounge, and an Arts Licensing Area that brings together illustration, design and consumer products.

Along the years, the BLTF/K hall has evolved into a **transmedia space**, including the TV/ Film Rights Centre and the Games Business Centre, which welcome audiovisual and gaming companies interested in developing IPs across books and multiple media ecosystems.

New this year, the Toy Lounge welcomes toy companies looking to connect with Bologna's vibrant creative and business community.

These special areas are supported by the Italian Trade Agency and the Italian Ministry of Foreign Affairs and International Cooperation (MAECI).

Also connected to the world of toys is the launch of the first Play Trade, the B2B version of Play - Italy's leading board game event. Professionals can discover the companies taking part in this new section at the Licensing Business Lounge, where the board game companies are located.

Now in its 19th edition, BLTF/Kids offers a lively programme of activities, presentations, and the 6th edition of the International Kids Licensing & Media Days, welcoming over 80 top-level speakers from around the world, with focus on gaming, toys, emotional learning, licensing, Asian trends, insights, and main industry topics, including an entire day dedicated to Book to Screen content adaptations.

An additional feature is the showcase of the 9th edition of the BolognaRagazzi Licensing Awards: an overview of the best children's consumer products launched in 2025.

## TOY ZONE

### THE NEW TOY AREA AT THE BCBF

The Bologna Children's Book Fair has long welcomed toy companies whose products naturally connect with the publishing world – from board games to educational toys and beyond.

Building on this established synergy, BCBF is taking a significant step forward with a dedicated area and a range of initiatives designed to showcase the toy industry and strengthen its links with publishing and children's content.

All participating companies are located in the Licensing Hall, including the new Toy Zone, featuring toy companies with their own stands.

A newly introduced Toy Lounge also hosts international companies attending Bologna for the first time, as part of an invitation programme supported by ITA and MAECI.

The offer is further enhanced by a strategic partnership with Play Trade with a dedicated B2B area for board games within the Licensing Business Lounge.

# COMICS CORNER

## THE BOLOGNA HUB FOR GLOBAL COMICS PUBLISHING

Launched in 2020, the Comics Corner has quickly become one of the most vibrant meeting points for the international comics industry. As the first professional event of the year dedicated to comics, it offers publishers and professionals the opportunity to connect, discover trends, and shape the year ahead.

This year, the Comics Corner collective area brings together more than 100 comic-book publishers from over 30 countries and regions, creating a truly global showcase of contemporary comics publishing.

The exhibition area offers a unique overview of the global comics landscape – from established publishers to exciting new players. A rich professional programme unfolds nearby at The Content Café and The Illustrators Survival Corner, where a series of talks and discussions explores key developments in comics publishing today. The 2026 programme dives into themes ranging from the distinctive storytelling and visual culture of Norwegian comics to the growing success of graphic novel series for young readers in the USA, alongside a look inside the making of bestselling children's graphic novels. Other sessions spotlight the new wave of Asian comics, the opportunities created by international artist residencies, the role of comics in supporting early independent reading, and the rapidly evolving Polish comics scene. BCBF's focus on comics also includes portfolio reviews, masterclasses and the BolognaRagazzi Comics Award. The Comics Corner Directory is available on the BCBF website and on the GRE, BCBF's online copyright trading platform.

*Real Passion for Books*

Tomolo Edigio edizioni is a small Italian publishing house specialising in illustrated books.

Our children's book series are intended to teach about values like love, friendship and respect, and offer children the opportunity to get in touch with other cultures. Besides our series written by contemporary authors and illustrated by Italian artists, we offer a series of English books and bilingual books (Tomolo International).

Our illustrated books are not only aimed at children. We have a hard-cover book series, Le Tomoleggende, intended for adults and collectors or, more generally, people who love beautiful, fairy and old-style illustrations. Each book focuses on local legends and investigates Italian and foreign folklore.

Tomolo Edizioni has recently expanded its catalogue and currently includes fiction for adults (romance, fantasy, thriller).

## THE BOLOGNA INVITATION PROGRAMME

The BCBF/BBPlus Invitation Programme – created with the collaboration and support of ITA and MAECI – enables a number of international publishers carefully selected for their publishing output to participate in the fair as guests in the yearly Invitation Programme.

The aim of the Programme is to enrich the fair's offer with quality publishers from all over the world and involve them in an agenda of B2B appointments with Italian publishers to foster the international exchange of rights. The matchmaking programme is managed through a dedicated platform in cooperation with AIE - Italian Publishers Association.

The World Lounge at BCBF 2026 welcomes 50 publishers from 37 countries.

After the three-year experience of Spotlight on Africa, the space in which the Bologna Children's Book Fair promoted the participation of 100 African publishers at the fair, BCBF's commitment in supporting African publishers continues. In fact, more than 10 publishers from the African continent have been selected to be part of the World Lounge.

NEXT CHAPTER CAFÉ  
HALL 29

As women working in publishing across Africa, the panelists share their experience of building children's literature ecosystems in contexts often shaped by structural challenges, while drawing on rich storytelling traditions that inspire diverse narrative and visual expression. The conversation explores how publishers grow local readerships and use international platforms like the Bologna Children's Book Fair to expand opportunities for African stories and creators. The session will also feature the announcement of the shortlist for the second edition of the *Prix de l'édition jeunesse africaine*, launched by eKitabu, which aims to boost the visibility and reach of French-language books by African publishers across the continent and beyond, and to foster greater exchange between Francophone and Anglophone Africa.

## ILLUSTRATORS FROM AFRICA AT THE ILLUSTRATORS SURVIVAL CORNER LIVE PAINTING SESSIONS & PORTFOLIO REVIEWS

As part of The Illustrators Survival Corner (Hall 30), BCBF promotes direct interaction between African creatives and the international illustration community.

The programme includes live painting sessions led by illustrators Issaba Bâ (Senegal), éf (Madagascar), Franck N'Zila Malembe (Congo), and Constantin Adadja (Benin), offering visitors a unique opportunity to experience and share creative processes in real time, as well as portfolio review sessions.

This activity is developed in connection with the Ressources éducatives project, implemented by UNESCO and the Institut Français. The component led by the Institut Français focuses on strengthening the role of children's books by supporting the professionalization of sector stakeholders, promoting access to books in all formats (print, audio, and digital) for young audiences, and encouraging the development of national policies supporting books.

## ONLINE COURSE FOR NIGERIAN ILLUSTRATORS IN COLLABORATION WITH THE BOOK BUZZ FOUNDATION

BCBF renews its support for the training and professionalization of African illustrators with a new online workshop dedicated to a group of 25 Nigerian illustrators.

The course, taught by illustrator Elenia Beretta and curated by Mimaster Illustrazione, takes place through weekly meetings, each dedicated to an in-depth technical and creative focus: color, composition, storytelling, character design, and the fundamental elements of designing a picture book.

*The activity is part of "The Nigeria Picture Book Project", a collaboration between the Book Buzz Foundation and the European Union.*

*"The Nigeria Picture Book Project (NPBP) aims to develop a vibrant ecosystem of Nigerian writers and illustrators creating high-quality, locally relevant children's books. It focuses on building capacity through structured training, mentorship, and production pipelines that lead to the publication and distribution of new picture books for young readers. As part of this, we are currently running intensive tutoring programmes in writing and illustration, equipping participants with the creative, technical, and professional skills needed to produce compelling, publishable work." – Lola Shoneyin, Director, Book Buzz Foundation*

FOR READING PROMOTION**

SERVICES CENTRE

The Italian Publishers Association (AIE) and Bologna Children's Book Fair, in collaboration with the French Syndicat National de l'Édition (SNE), the Federation of European Publishers (FEP), the International Publishers Association (IPA) and the International Board on Books for Young People (IBBY) present an international conference dedicated to effective reading promotion practices from around the world and the role of European and international cultural policies.

The event is addressed to the entire book and reading community—publishers, librarians, institutions, teachers, professional associations, and the press—and offers an opportunity to explore some of the most successful initiatives currently underway at a global level, including #ioleggoperché in Italy, the Quart d'heure de lecture in France, the UK's National Year of Reading, and other projects.

The second part of the conference focuses on proposals from trade associations, with contributions from representatives of FEP, IPA, and IBBY, fostering a shared discussion on current initiatives, future challenges, and the strategic priorities emerging from dialogue with European and international institutions.

SERVICES CENTRE

In 1989, world leaders made a historic commitment to children by adopting the United Nations Convention on the Rights of the Child—the most widely ratified human rights treaty in history. While this agreement has helped improve the lives of millions, many children around the world are still denied their fundamental rights.

To highlight the importance of protecting and promoting these rights, Bologna Children's Book Fair continues its tradition of hosting a shared moment of reflection—one that feels especially meaningful in the complex times we are living through. This year, the occasion is further enriched by an additional reading to follow at the Illustrators Café.

Organised in collaboration with the United Nations, the initiative takes the form of a multilingual reading of the Convention, bringing together 42 distinguished authors, illustrators, and publishers from around the world. Each participant will read one of the Convention's 42 articles in their native language, creating a powerful, collective voice for children's rights.

ILLUSTRATORS CAFÉ  
SERVICES CENTRE

Following the reading of the *Convention on the Rights of the Child*, this chorus in defence of childhood from the world of children's literature stands as a response to the conflicts taking place around the world in which children are so often involved.

The event is inspired by a recent incident: during an Italian television programme, a guest, confronted with data about children killed in a conflict, replied, "Please, define child." The remark sparked widespread outrage and, in the days that followed, many people joined peaceful demonstrations, holding up Beatrice Alemagna's children's book *What Is a Child?* as a powerful, implicit answer.

That same response resonates here, as authors and publishers from around the world read excerpts from their books, affirming the urgent need to protect and safeguard childhood—beyond any definition.

## **ITALIAN EXCELLENCE: PINOCCHIO'S NEW CLOTHES**

On the occasion of the bicentenary of Carlo Collodi's birth, the new exhibition in the *Italian Excellence* series is dedicated to *Pinocchio*, one of the most widely translated and reinterpreted Italian books in the world. In this case, excellence is embodied not by individual artists, but by a work that belongs to a shared global cultural heritage. The exhibition is structured in two sections: on the one hand, a selection of published works by international illustrators; on the other, a selection of illustrations from the international competition promoted by the Bologna Children's Book Fair. Taken as a whole, the exhibition offers a plural and contemporary perspective on the character, articulated through multiple visual languages, tones and imaginaries, reflecting diverse cultural heritages. The exhibition is accompanied by a bilingual catalogue featuring contributions from the jury, published by Giunti Editore and curated by Accademia Drosselmeier and Bologna Children's Book Fair. Following the fair, the exhibition is scheduled to travel to several cities around the world.

## **CHINESE EXCELLENCE IN CHILDREN'S ILLUSTRATION 2026**

The extraordinary experience of the exhibition series "Italian Excellence", documenting the best of contemporary Italian illustration, alongside the mutual friendship established between BCBF and China, inspired in 2024 the first ever development of the exhibition series "Chinese Excellence in Children's Illustration". Each year, a jury of international and Chinese experts will select the best Chinese illustrators, thus contributing to building an outstanding overview of contemporary Chinese illustration. The 2026 jury, composed of Elodie Bourgeois, Cai Gao, Grazia Gotti, Chen Hui, Øyvind Torseter, Jiang Xun and Tian Zhongli, selected 18 finalists and 2 winners -with the titles of "Winner of the Year" and "Work of the Year"- whose artwork is featured in the exhibition and in the catalogue, published in English and Chinese. The initiative is organised by BCBF, China South Publishing & MediaGroup and Sidee Cultural Communication.

AWARDS ENTRIES

The magnificent Salaborsa Library, in the heart of Bologna, provided the setting for the jury process of the 2026 BolognaRagazzi Awards, hosting thousands of submitted volumes. From over 4,000 titles received this year from 73 countries and regions worldwide, the winners and special mentions were selected. The international juries conferred awards across five established categories—Fiction, Non-Fiction, Opera Prima, Comics, and Toddler. Each edition also features a special category, with Fables & Fairy Tales chosen for 2026. Beyond the awarded titles, many other works left a lasting impression on the international juries of experts, critics, and journalists, who surveyed the richness and diversity of global publishing. Bologna Children's Book Fair is proud to dedicate a special exhibition to these publishing gems, enhancing their visibility on the international stage. Bringing together 150 titles from 43 countries, the exhibition attests to an extraordinary level of creative and artistic excellence and affirms how quality publishing flourishes across every corner of the world. Conceived and crafted to nurture the intelligence, curiosity, and thirst for knowledge of young readers, these works display remarkable refinement and striking inventiveness—a truly Amazing Bookshelf.

# DIGITAL NARRATIVES OBSERVATORY

## MAPPING NEW DIGITAL STORYTELLING FOR CHILDREN AND YOUNG PEOPLE

The Digital Narratives Observatory is a project promoted by Literacy Italia Association and the Bologna Children's Book Fair to observe and map emerging digital narrative forms for children and young people.

On 15 and 16 April 2026, the initiative brings together researchers, authors, publishers, teachers, and reading professionals to discuss how digital media is transforming the relationship between young readers and stories. Interactive books, transmedia storytelling, immersive experiences, and AI-mediated collaborative narratives are reshaping the ways stories are read, experienced, and shared. The programme features the premiere presentation of the first Digital Narratives Observatory Report, an international roundtable bringing together writers and researchers—"We're not digitizing books, we're inventing new narrative languages"—and a special event dedicated primarily to teachers and librarians: "Moving Mountains: motivating readers in the age of artificial intelligence." The initiative is part of a training programme published on the S.O.F.I.A. platform of the Italian Ministry of Education and Merit (ID code: 103281). Participation is free of charge.

# CHINA SHANGHAI INTERNATIONAL CHILDREN'S BOOK FAIR

## THE EASTERN CHAPTER OF BCBF

Since 2018, BCBF has expanded its reach across the globe, becoming co-organiser of the China Shanghai International Children's Book Fair (CCBF). The trade show has rapidly evolved into one of the leading international platforms for children's publishing, and a key event in the Asia-Pacific region entirely dedicated to children's books and content. As the only fair comparable to BCBF in its exclusive focus on children's publishing and its strong professional orientation, CCBF offers a rich programme of conferences, industry seminars and creative events. Topics range from publishing strategies and rights trading to reading promotion and hands-on workshops led by internationally renowned illustrators and authors.

The 2026 edition will bring together more than 500 exhibitors from around 35 countries and regions and is expected to welcome over 45,000 visitors, confirming CCBF's growing role as a gateway to the Asian children's publishing market.

In today's world, graphic communication is everywhere. The language known as infographics originates in the Isotype project, conceived as a universal visual language by Otto Neurath. It was later developed by Marie Neurath, who brought charts and diagrams into visual books, blending explanation with storytelling. Her insight was clear: in the modern world, complex ideas can reach wider audiences—especially young readers—through engaging and accessible visual narratives.
