

# READING FOR A HEALTHY PLANET: INSPIRING CHILDREN'S BOOKS TO HELP ACHIEVE A SUSTAINABLE FUTURE

Organized by

**BOLOGNA  
CHILDREN'S  
BOOK  
FAIR**

An event by  
**Bologna  
Fiere**

In partnership with

Curated by

giannino stoppani

academia drosselmeier

Chiara Basile, Grazia Gotti, Marina Lepore,  
Petra Paoli, Silvana Sola, David Tolin

In collaboration with

Laboratorio delle Idee **li**

This exhibition features 70 outstanding environmentally-themed children's books from all over the world. Children's titles about sustainability serve as a powerful tool to introduce

global issues to young audiences, inspiring them to become active participants in creating a sustainable future. Children's books can help convey complex ideas about the impact of our actions on the environment and empower kids to start making a difference in their communities from an early age.

This exhibition is in support of the Sustainable Development Goals, a framework for a better future for all by the United Nations. Inspired by the SDG Book Club, a collaboration of the United Nations, the International Publishers Association, the Bologna Children's Book Fair, the European & International Booksellers Federation, the International Board on Books for Young People, the International Federation of Library Associations and Institutions.
